RAID ON CONTINENTAL TOBACCO.

Lower-Corn and Oats and Provisions Declined.

NEW YORK, June 9 .- Late this afternoon occurred one of those slaughters of the innocents around the Sugar post on the floor of the Stock Exchange, which have come to be looked for as periodical neidents. For weeks there have been direful predictions that the end of Sugar as a dominating factor in the refining industry was at hand; that the fight of its life was on its hands, and that a sus-pension of dividends was imminent, to disastrous predictions. Gentlemen sup-posed to be versed in the inside affairs of the company have either been slient, with an expression of sadness, or have freely admitted their convictions of the truth of the worst that could be said. Many persons, attracted by the prevailing high level of Sugar, considering these conditions, have sold very neerally, with
the expectation of buying back when
the collapse came. A great many of
these bought their stock to cover short
contracts to-day at a level nearly 29
bolhts above that to which the direful
predictions had carried it. Inside interests became averse to selling, and held
out tenaciously for the higher price. This
exciting and painful incident closed a
day of uniform strength throughout the
market for securities.

The action of the market was very market for securities.

The action of the market was very similar to that of yesterday, the early strength centring in the New York Traction stocks and the Grangers.

BEAR RAID ON TOBACCO.

The bears made an ineffectual attempt to check the advance by raiding down continental Tobacco over 3 points. They urned Sugar backwards some 1½ points also, but without marked effect on the general list. Later there was realizing in the New York Traction group, with reactions of about a point, but the vigorous strength developed by the Coalers again turned the market upward. The same thing happened in the last hour, when the professionals took profits in Sugar and the Traction stocks.

The recovery began in some of the obsure stocks, Des Meines and Fort Dodgarising 44; Consolidated Gas, 8 points, and the Wisconsin Central new issues, 262½. People's Gas and Steel and Wire also came into the advance later, the latter on a published opinion by a director in favor of a dividend on the common stock. Then came the rush in Sugar, which made the last prices the highest of the day. The BEAR RAID ON TOBACCO.

Then came the rush in Sugar, which made the last prices the highest of the day. The net gain in Sugar is 6%; in Brooklyn Transa, nearly 2 points; in Metropolitan Street Railway 5%; in Manhattan, 4 points; in the Conlets, from 1½ in Delaware and Hudson and New Jersey Central, to 4½ in Lackawanna; in the Grangers from 161½; in many standard stocks a point or over.
